Subject: FW: Alkalinity and pH
Attachments: Ph.xls; 2018_2019_Finished Alkalinity.xls

This pH and alkalinity data is for the whole state, not just surface water. Most pH data is not in SDWIS, but on the monthly operating reports (MORs). The MORs are not available electronically yet. If there was a specific CWS, I could scan the MORs and send to you.

Not all of the CWS have this data logged into SDWIS. Here is what I could come up with for 2018 and 2019 for finished water only.
